Re: Insultab, Inc. RoHS Compliance

Insultab, Inc. certifies based on information provided to us by our suppliers, that the compounds currently used to manufacture both clear and black HS105 PVC heat shrink tubing and 4900 PVC sleeving, meet the RoHS requirements established in EU Directive 2002/95/EC. This directive limits the use of lead, mercury, PBB, PBDE and hexavalent chromium to 0.1% by weight and cadmium to 0.01% by weight in electrical and electronic equipment.

Products are also available in other RoHS compliant colors. Please contact me if you require specific information regarding certain products.

Regards,

Ken Muirhead  
Insultab, Inc.
