

**Sizes 32 & 40  
Now Available**

## Product Highlights

- Working Temperatures:  
-60°C to 200°C
- FAR Part 25
- Halogen-free
- Self-wrapping design
- Easy to apply and remove
- Ideal for reworking components without disconnecting them
- Tough fabric texture
- Approved to:  
AECMA EN 6049-006

# Roundit<sup>®</sup> 2000 NX

## Protective Wrap Product

Bentley-Harris<sup>®</sup> Roundit products are tough, lightweight oversleeves used to bundle and protect cable assemblies, hoses and wire harnesses from chafing, cutting and abrading. The self-wrapping feature of Roundit products allows for quick and easy application and removal of the product for assembly and maintenance. Also, the product may be applied or removed without disturbing connectors or fittings.

Roundit 2000NX is a woven blend of Nomex\* and PPS (polyphenylene sulfide). The Nomex/PPS blend in a flat weave construction gives Roundit 2000NX a rugged yet smooth texture and appearance for high temperature bundling and abrasion resistance. This product is rated to 200°C and is non-halogenated.

Roundit 2000NX is ideal for rail and air transportation applications due to its excellent abrasion resistance and halogen-free qualities .

\*Nomex is a registered tradename of DuPont.
